SANTA ANA, CALIFORNIA, SATURDAY EVENING, AUGUST 16, 1913.

56 CENTS PER MONTH

5000 KILLED IN CANTON FIGHT

Rebels and Federal Troops Engage in Desperate and Bloody Struggle

LOOTING IS GENERAL. POLICE POWERLESS

Stories of Awful Tortures Inflicted on Prisoners in the City

HONGKONG, Aug. 16.—Five thousand are reported killed in the fighting in and around Canton between rebels and federal troops during the past few days. Looting continues, the police being powerless against the soldiers. Many houses were destroyed by fire in various sections of the city today.

There has been a loss approximating millions since the revolution was precipitated. Thus far there has been no molestation of the foreign quarters.

Many prisoners have been tortured, some being led through the streets on wires running through holes bored in their ears and noses.

WATER COMPANY BROUGHT TO TIME

First Fine Against Public Service Corporation by R. R. Commission

SAN FRANCISCO, Aug. 16.—The first fine imposed on a public service corporation by the state railroad commission was fixed today when the Hermosa Beach Water Company of Los Angeles county was assessed \$500 for failure to obey the commission's order to furnish an adequate water supply to certain sections in its territory.

The company was ordered last February to give a satisfactory service, following complaints by consumers. July 29 the company was cited for failure to obey. The fine was imposed today with the understanding that it will be remitted if the order is complied with. In case the company proves obdurate the district attorney of Los Angeles county will be ordered to prosecute.

MISSION TOWN STORE IS NOW INCORPORATED

SAN JUAN CAPISTRANO, Aug. 16.—The general merchandise store bought a few months ago by C. F. Von Petersdorff has incorporated under the name of the Capistrano Commercial Co., with Von Petersdorff as president and active manager. E. D. Elson is secretary and treasurer. Von Petersdorff has had a wide experience in the merchandise business. He was in Mexico when things got so hot that he returned to this country, of which he is a citizen. The store handles about everything a general merchandise store could handle, and is giving the people of this store is located in the postoffice, the long distance telephone booth and a station for the sale of gasoline to passing automobiles. Von Petersdorff was recently appointed postmaster.

MRS. PANKHURST ALLOWED TO SAIL FOR FRANCE LONDON, Aug. 16.—Disregarding a sentence of three years imprisonment imposed for inciting the dynamiting of Chancellor Lloyd-George's house, Mrs. Pankhurst sailed for France today. The police didn't interfere, although her proposed departure was known. She is at liberty under the "cat and mouse" act.

Los Angeles May Be Deprived of Templar Conclave

DENVER, Aug. 16.—Reports are current here that Los Angeles will not get the next Knights Templar conclave, despite its selection at the recent meeting here. It is believed the Grand Master will veto the selection on the ground that a better attendance would be assured if a middle western city should be chosen. Within three months the Grand Master, McArthur, will make his selection. The Templar law empowers him to reject the conclave's choice and summon the grand officers to make another selection.

Los Angeles Will Fight Southern California Knights Templar will combat the alleged attempt to prevent the next conclave of the order from coming here, according to statements today of prominent Knights. Many believe the grand master is not empowered to change the convention place, and are unanimous in their determination to force the convention to come here.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Fair tonight and Sunday; light west winds.

Geber Sentenced After Fourteen Years SAN FRANCISCO, Aug. 16.—Convicted of murder in the first degree, sentenced to hang, then forgotten for nine years, August Geber must die November 14, according to an order by Superior Judge Dunne. Geber is confined in San Quentin.

PROMINENT WOMAN CHARGED WITH LARCENY

LOS ANGELES, Aug. 16.—Accompanied by her bondsmen, Mrs. Imogene W. Huey, secretary of the Women's Democratic League and wife of a well-known Los Angeles attorney, yesterday gave herself up in justice of the Peace Reeve's court. Mrs. Huey, who is well known throughout the state, is charged in a complaint issued by Deputy District Attorney Ralph Graham, with larceny "by trick and device."

MARSE HENRY SHIES BRICK AT GOTHAM

LOUISVILLE, Aug. 16.—Henry Waterson threw the following brick at New York today: "That the people of New York are incapable of self-government, especially the people of the city which dominates the state of New York, has long been the belief of observant and thoughtful onlookers. Life is safer among the feudists of the mountains of Kentucky than it is in the borough of Manhattan. Judge Herlick talks loftily of 'preserving the dignity of the commonwealth,' alack, the day. It has no dignity to preserve. Things are every whit as bad as they were under Tweed. They were amateurs in those days."

OWN FUNERAL ARRANGED BY MONROVIA MAN

MONROVIA, Aug. 16.—One of the most remarkable cases ever recorded in local medical history is that of B. M. Blythe, a retired real estate dealer of this city, who, suffering from cancer of the stomach, and being advised by a dozen physicians that his malady is incurable, has purchased a plot in the cemetery, selected his casket, made arrangements with his undertaker, and signed an order for his physician to hold a post-mortem over his body, in company with a number of fellow-doctors, when the end comes.

OFFICIAL STATEMENT GERMANY WON'T EXHIBIT

BERLIN, Aug. 16.—The semi-official North German Gazette prints an article stating positively that Germany will not exhibit at the San Francisco exposition. It declares that German industries are overwhelmingly opposed to such an exhibit because they cannot see any possible benefits. The article states that the government feels favorably toward the exposition, and reached the decision with regret.

PRAYERS WILL GO UP FOR RAIN

Hundreds of Towns Through Middle West to Implore Relief Tomorrow

BLISTERING HEAT COVERS WIDE AREA

Crop Conditions Becoming So Serious as to Demand National Attention

KANSAS CITY, Aug. 16.—Kansas today entered on its thirteenth day of blistering heat. Business is practically suspended in many towns. Water trains are being operated on several roads. Hundreds of towns will offer prayer for rain in their churches tomorrow.

Light showers temporarily relieved heat conditions today, but later dampness added to the humidity and suffering continued. The mercury continues to climb.

DROUGHT THREATENS A NATIONAL CALAMITY

CHICAGO, Aug. 16.—Heat and drought conditions in the Middle West have now become so serious that they challenge the attention of the entire country. Corn and other crops are in imminent peril of utter destruction and epidemics are threatened in various localities because of impure water. Livestock is perishing for lack of water and the fire hazard is alarming over a wide area of territory.

In at least three states it is now feared the corn will not even make good fodder. The farmers will not get back their seed and their labor has been lost. Bankers are taking cognizance of the fact that hundreds of men who borrowed against this year's crops will have to be carried along or ruined. Not only must their time be extended upon present obligations, but they must be put upon their feet next season.

The unbroken heat which has prevailed in some of the corn-belt states for approximately two months has withered everything. Evidence is accumulating that enormous losses in the corn yield will be shown in the big surplus-producing state because of barren stalks. Severe heat at the time the tassels was unfolding prevented many stalks from putting forth shoots, as the tassels were badly burned. Equally important losses from poor fertilization and filling came from the same cause and from the deficient subsoil mixture. It is notable that the heaviest losses from barren stalks are in the best corn-producing sections. Exceptions prevail where localities have had plenty of moisture.

Many Prostrated at Chicago CHICAGO, Aug. 16.—A temperature of 93 was recorded this morning and the mercury is climbing. Many prostrations have been reported. The heat wave extends over Illinois, Indiana, Iowa, Kansas, Missouri and Wisconsin.

INCOMPETENCE CAUSE OF VINEYARD WRECK

Railroad Commission Demands of P. E. Drastic Steps Toward Safety

SAN FRANCISCO, Aug. 16.—Holding officials of the company indirectly responsible for the wreck on the Pacific Electric railway short line at Vineyard station, near Los Angeles, July 12, in which sixteen persons received fatal injuries and a large number of others were hurt, the railroad commission of California handed down a decision yesterday, which is accompanied by an order demanding that the railway concern make drastic changes for the safeguarding of passengers.

That incompetency in the operation of the trains was the direct cause of the crash was indicated in the following statement of the commission: "While we are reluctant to place the blame for the resulting tragedy, we feel it our duty to say that the collision resulted from the incompetency of these trainmen, the underlying cause of which incompetency appears to be the insufficient instruction, training and examination given these men by officials of the company." The commission in its order shows a determination that the wreck shall not be allowed to become a memory in the minds of the officials of the company, but demands within sixty days a complete report of needed reforms. These include a consideration of the crossing of highways with the lines of company and their proper safeguarding.

SULZER HOLDS ON, GLYNN WORKS

Predicted Dual Governorship Will Continue Until Time for the Trial

GLYNN HAS BEST OF THINGS AT PRESENT

Sulzer's Friends Urging Him to Resign to Start a New Fight

ALBANY, Aug. 16.—William Sulzer continues in possession of the executive chamber, while Lieutenant Governor Glynn, signing himself "Acting Governor," is discharging practically all the gubernatorial duties. Glynn is steadily refusing his supporters' demand that he oust Sulzer from the executive offices. It is predicted that the dual governorship will continue, although Glynn is admittedly the stronger.

Sulzer's secretary denied this morning that the news of Mrs. Sulzer's condition was being suppressed. He said she is very ill and cannot sleep without opiates.

The report has been revived, and denied again, that Sulzer will resign. It is said his friends are advising him to resign and prepare for the fight for the next nomination, making his fight against Tammany.

GLYNN REFUSED TO CONSIDER COMPROMISE

ALBANY, N. Y., Aug. 16.—Acting Governor Martin H. Glynn sent to William Sulzer last night a letter in which he flatly refused to refer to the courts the question of who is the rightful governor of the state of New York. He said:

"I shall perform every function of the office of governor except insofar as I am restrained by your illegal actions or by physical force."

He says that "it is beyond my power to barter away any of the functions attaching to the office in which I am placed by your impeachment. He contends that the court of appeals, to which Mr. Sulzer wants the issue submitted, has no right to interfere in impeachment proceedings."

The letter was delivered to Mr. Sulzer at the executive mansion at 9:29 by Mr. Glynn's secretary, Frank A. Tierney. Mr. Glynn, with his lawyer, answered the question which every body in Albany had been asking all afternoon, what he was going to do about Mr. Sulzer's proposal that the lawyers for both sides get together and arrange a test case to be laid before extraordinary sessions of the appellate division of the supreme court and the court of appeals.

GIRL CALLED "FATTY" APPEALS TO COURTS

LOS ANGELES, Aug. 16.—Whether calling a pretty, plump little girl "fatty" is sufficient cause for an altercation, will probably be settled today by Police Judge Frederickson Rosetta L. Loebe says it is an insult, and yesterday secured a complaint charging J. D. Eisenberg of 135 Avenue 42, with battery because, she alleges, he turned a hose on her and struck her over the head with a mallet, after a young relative of Eisenberg had applied the offensive epithet to her.

CANADIAN STREET CAR MEN TAKING VOTE ON STRIKE

VANCOUVER, Aug. 16.—Five thousand employees of the British Columbia Electric Railway, operating the street cars of Vancouver, Victoria, New Westminster, and various inter-urban lines, are taking a strike vote today. A new working agreement has been under consideration for some weeks. The arbitration Wednesday night presented their reports and recommendations. The vote today is on the motion to accept the report. Its rejection will be accepted as a vote for a strike.

CITRUS GROWERS GET SOP FROM SENATE

WASHINGTON, Aug. 16.—California citrus growers gained a slight advantage in the Senate today when a motion by William C. Messersmith was carried striking from the tariff bill paragraph regarding citrus fruits all provisions for rates based on package measurement, leaving merely the flat rate, as otherwise provided.

GIRL UNCONSCIOUS IN POOL WHEN RESCUED

Miss Norma Wingood, Well Known High School Girl, Sank Three Times in Deep Water of Tank

While bathing in the new pool of the Santa Ana Bath House yesterday afternoon about 5 o'clock, Miss Norma Wingood, who lives at 1897 North Main street, had a narrow escape from drowning. She was rescued after she had gone down in about six feet of water for the third time. Miss Wingood is a charming girl, well known in the high school, where she has completed her second year.

Yesterday with a number of girl friends she went into the new pool. This pool at the deepest place is seven feet. Miss Wingood was not familiar with the depths of the pool, and instead of remaining toward the end where the water is not deep she got into the east end, where the deep water is. Finding herself in water deeper than she expected, she became confused, and got into deeper water. It was ladies' day at the pool, and only women and girls were in the water. The girl went down for the third time almost before others realized what was happening. Then an attendant at the bath house jumped into the water with his clothes on and quickly had Miss Wingood out of the pool. She does not remember going down for the third time, and what occurred during the first few minutes after she was taken out of the pool is a blur.

BLOODSHED IS FEARED

Gunmen Imported to Colorado in Expectation of Miners' Strike

TRINIDAD, Colo., Aug. 16.—A hundred gunmen from the West Virginia coal fields arrived here preparatory to the expected strike of nine thousand miners in southeastern Colorado. The miners are members of the United Mine Workers of America. The strike order is expected next week, and bloodshed is feared at the resulting without.

President Thomas Ulrich, of the miners' local here, predicts the men will strike after international Vice President Hayes addresses them at an open air meeting next Tuesday. The Colorado Federation of Labor meets Monday, and is expected to endorse a strike. Operators are already importing strike-breakers.

TWO MAY DIE FROM 'FRISCO STREET FIGHT

SAN FRANCISCO, Aug. 16.—An affray between two electricians employed by the Pacific Gas & Electric Company and four unknown men yesterday afternoon will probably result in two deaths.

Louis H. Troost, one of the gas company's employees, is dying at St. Luke's Hospital, with a bullet wound in the abdomen. One of the attackers, probably fatally stabbed, was carried away by his companions.

Troost and Nell were at work trimming lamps on Mission road, near Ingleside, and near old St. Mary's College, when the four men approached them. The fight was over in a moment. One of the strangers drew a gun and shot Troost, who drew his knife in the scuffle and stabbed one of his assailants.

Passersby who heard the sound of the shot came to the rescue and the three men fled, carrying their wounded companion with them.

TO FURTHER RED-LIGHT LAW

Plans Started for State Convention to Take Up Reform Measures

SAN FRANCISCO, Aug. 16.—The California Federation for the Suppression of Vice has issued a call for county meetings to be followed by a state convention to discuss state-wide plans for a campaign in favor of the red-light abatement bill. The referendum is holding up the bill recently passed by the legislature.

TROOPS READY TO QUELL OUTBREAK OF STRIKING MINERS

NANAIMO, B. C., Aug. 16.—Seven hundred troops are quartered today in the Vancouver Island coal mining districts, where strikers have threatened violence. There is still danger of an outbreak at Cumberland and Ladysmith, where the strikers are greatly incensed against the troops. Disorders have ceased elsewhere. The Cumberland strikers refused to consider peace terms because two hundred Chinese imported from Eastern British Columbia are at work in the mines.

DR. WHEELER TO RESUME HIS DUTIES IN SEPTEMBER

BERKELEY, Aug. 16.—According to Dr. David P. Barrows, acting president of the University of California, letters have arrived that set at rest the rumors that President Benjamin Ide Wheeler will be unable to return to his duties because of ill health. According to Dr. Barrows, the Wheeler party will be home in September.

SAYS ORANGE COUNTY HAS MANY THINGS OF WHICH SHE MAY WELL BE VERY PROUD

Blake, Moffitt & Towne, Importers and Dealers in Paper. Los Angeles, Cal., August 4, 1913.

Mr. J. P. Baumgartner, Pres. and Mgr., Register Publishing Co., Santa Ana, Calif. My Dear Mr. Baumgartner:—Allow me to congratulate you upon the splendid Orange County Quarter Centennial Edition, copy of which I have just received and read with much interest.

The book is exceptionally well designed and has a very metropolitan air about it. It shows that Orange County has many things of which it may well be proud, foremost of which is the Register Publishing Company and its energetic staff.

With kindest regards from the writer in which Mr. P. G. Greppin joins him, and with best wishes for your continued success, I am

Yours very truly, E. H. GREPPIN.

There is, perhaps, no better judge of good work in journalistic and publishing lines than Mr. E. H. Greppin, manager for Blake, Moffitt & Towne, paper dealers, of Los Angeles. The foregoing letter tells what Mr. Greppin thinks of the Orange County Quarter Centennial Edition of the Register.

This edition is selling at the rate of about 50 copies a day. We believe the entire edition will be taken. But the sooner it is mailed the more good it will do to advertise Orange County.

REAL ESTATE UP TEN PER CENT

Trustees Will Leave Rate the Same, \$1.20, But Will Get \$7,000 More Taxes

HORIZONTAL RAISE ON THE LAND ONLY

Total Assessed Valuation is Lifted About \$401,000 by the City Board

The Santa Ana City Trustees, sitting as the city board of equalization, ordered a raise of ten per cent on the assessed valuation of all real estate in Santa Ana. No raise was ordered on improvements and other classes of property. The Trustees have reached an understanding among themselves that when the time arrives for fixing the city tax rate, which time will be the third Monday in September, the tax rate will be \$1.20 per \$100 of assessed valuation. That is the same rate that the city had last year.

The growth of the city has been such that various city departments have calls for more money. There are but two ways to raise more money for city purposes. One is to raise the tax rate and the other is to increase the assessment. The Trustees found that the assessment this year was only about \$200,000 higher than last year, which means that at the old rate of \$1.20 the taxes would be increased about \$2300. The Trustees believed the city ought to have a bigger increase than that. They were opposed to raising the tax rate.

After examining the tax rolls they reached the decision to order a horizontal raise on all the real estate in the city, and upon real estate only. The order was made that each assessment on real estate be raised ten per cent.

The total valuation of real estate, according to the figures of City Assessor E. L. Vegelys, was \$4,611,370. The ten per cent raise will increase the assessment on real estate \$461,137. This will raise the city's total assessment from \$6,614,270 to \$7,075,407.

At the rate of \$1.20 this will give the city treasury approximately \$7,100 more than was received last year. After ordering the horizontal raise on real estate the board of equalization adjourned sine die.

STATE'S BUSINESS IN FINE CONDITION

Treasurer Roberts Has Figures to Show that General Prosperity Exists

SACRAMENTO, Aug. 16.—That every important interest in California and business generally is on a sound financial footing, better than ever before in the history of the state, was the contention yesterday of State Treasurer Roberts when he pointed out that franchise tax collections for the day aggregated \$2,474,620, bringing the total collected to date for the 1913 fiscal year to \$4,619,000. "The first installment of the corporation license taxes which becomes delinquent Monday, I think from present indications will be overpaid \$500,000. Scores of corporations, which under the law, are obliged to pay but one installment at this time, have already paid both installments," said Roberts.

"Collections have never been so good for the state and it now looks as if the number of delinquents will be only nominal. We have three days in which to collect probably \$1,750,000 that is still due, but I think fully \$2,500,000 will be paid. "Next Tuesday morning California will have in cash on hand approximately \$18,000,000, a sum never equaled before in the history of the state."

Roberts says there have been less protests filed this year over the amount of the franchise taxes levied by the Board of Equalization than ever before.

Six thousand corporations out of about 25,000, must still pay the first installment of the 1913 tax by Monday night or suffer a penalty of 5 per cent for delinquency.

The Best Pain Killer

Bucklen's Arnica Salve when applied to a cut, bruise, sprain, burn or scald, or other injury of the skin will immediately remove all pain. E. B. Chamberlain of Clinton, Me., says—"It robs cuts and other injuries of their terrors. As a healing remedy its equal don't exist." Will do good for you. Only 25c at all druggists. Advertisement.

EXCAVATING FOR ONE-STORY BRICK

Announcement that Four-Story
is to be Built Occasion for
General Rejoicing

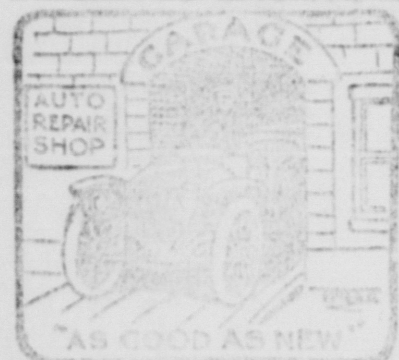

POURING CEMENT ON CHURCH JOBS

T. J. Alexander's New Resi-
dence to be Ready for Occu-
pancy in Two Weeks

Nothing that has occurred in Santa Ana recently has caused as much talk and comment as the announcement of the Spurgeon Realty Co. that it would build a four-story building at the southwest corner of Fourth and Sycamore streets. It was an occasion for general rejoicing, for people interested in the development of this city have long felt that the time was ripe for the construction of a big modern building, such as the Spurgeon building is going to be.

During the week the old fire hall adjoining the postoffice has been torn down. This building was put up in the seventies at the place where Crookbank Realty Company's store now stands, and was used by Santa Ana's founder as a general merchandise store. It was quite a building in those days, but it was not much of a building in comparison to the two-story brick that replaced it, and the two-story brick that was a big thing when it went up is not much of a building when compared to what the Spurgeon company proposes to put where it now stands.

While workmen were engaged in tearing down the old fire hall, other workmen were excavating on the adjoining lot for the foundations and basement of the one-story brick building that the Spurgeon company is to build at the northeast corner of Third and Sycamore streets. The excavation will be completed in a day or

Yes, Sir—As Good as New

Makes Buildings
30 Degrees
Cooler

On a hot summer day the
temperature in the upper part
of a building covered with
J-M Asbestos Ready Roofing
is from 15 to 30 degrees
cooler than with any other
roofing. The white asbestos
surface reflects the heat instead
of absorbing it and transmitting
it to the rooms below.

This is only one of the
exclusive features of

J-M ASBESTOS
ROOFING

Besides making a building
cooler in summer and warmer
in winter, it is the only
ready roofing that never needs
painting. J-M Asbestos
is also the only ready roofing
that is fire-proof.

ITS FIRST COST IS THE
ONLY COST.

Write or call today for
Samples and Booklet.

See us for Beaver Board,
Lumber, Mill Work, Cement.

Griffith Lumber Co.

two, and it will not be long before the
pouring of concrete will begin. This
building is to be erected immediately
so that the tenants of the Spurgeon
block now facing Fourth street may
have places to go while the big four-
story is going up.

Church Foundations
Scores upon scores of yards of
earth have been hauled away from
the northwest corner of Main and
Church streets, where the excavation
is being completed for the First Pres-
byterian church. This church, the first
part of which was built in 1887, is in-
creasing the forms were removed from a
portion of the north basement wall.
This church is going to have an extra
large basement. The structure itself
is going to cost \$30,000, and the
church will be just about the very
best church in this city of ours, fa-
mous for its churches.

A block west and a block south of
this corner other workmen are busy
making an excavation for the annex
of the First Presbyterian church,
which building will cost about \$7500.
Contractor E. W. Smith has let the
sub-contract for the concrete job to
Paul Carabian. Gravel and cement
are on the ground ready for mixing,
and the concrete walls of the base-
ment will soon be up. This structure
will join the church building on the
north. Corridors between basements
and on the ground floors are to be the
means of communication between the
main church building and the Sunday
school.

Almost Completed
Within two weeks the splendid new
residence built by Contractor Skiles
for T. J. Alexander on French between
Fourth and Washington avenues, will be
ready for occupancy. Just at present
Mr. Alexander's nephew, who came
here from Redlands, is at work on the
interior woodwork finish. The entire
house was planned with the idea of
getting something different from the
others that have proven most popular
of late; that is, the stained slash-grain
oak panel effects. It was concluded
to use white pine and finish it in the
natural color. That is what is
being done all over the house, ex-
cepting in the bath-rooms and kitchen,
which are in white with hard
plaster running to the picture mold.
And splendid effects have been se-
cured. The rooms have a delightful
soft tone that is hard to equal. A
proportion of wood has been used in
the finishing of the three biggest
rooms of the lower floor. Take the
dining-room, with its beautiful buffet
and windows. It is paneled with
what appears to be one unswayed piece
or each side of the room. No joints
are used.

The living-room is a place of un-
usual attractiveness with a high ceiling
and high baseboard effect. This
splendid home is deserving of a more
minute description, and certainly will
be a joy to live in.

Not so far along toward completion
is the fine new home being built by
Contractor A. C. Black for Arthur H.
Pence, on Spurgeon, a block west of
the Alexander home, and like the Al-
exander home, it has an east front.

There is a residence that holds
much of interest to any person inter-
ested in home-building. Exterior and
interior are unusual in design, the
work of Mr. Pence, who is an artist
in architectural effects. He has ex-
ercised his genius most effectively.
It takes but a cursory examination to
convince one that there is no other
house in Santa Ana anywhere near
like it. For a city that has grown up
in the atmosphere of the California
missions, Santa Ana has remarkably
few houses where the mission style
has been used, and it is with a good
deal of pleasure that one finds red
tile roofs. The exterior of the house,
however, is not all mission in style.
Mr. Pence has used a good deal of
the Italian in his plan.

The two of the main portion of the
building is not visible from the street,
instead of being flat or running to a
peak upward, the roof slopes down-
ward to a light shaft, a drain pipe
being provided to take storm water
away.

Oregon pine at its very best is be-
ing placed in the living-room, dining-
room and den, and some superb ef-
fects are to be obtained. Veneered
panels, unusually wide and in the
living room running almost to the
picture mold, will carry delightful col-
ors. This house has many splendid
features in the arrangement of the
rooms as well as in the decoration
that will be provided. A stairway
leads to the only upstairs room, as
fine a bedroom as one could wish,
with windows on two sides and a
door leading out upon a roof-garden
on the other. This room is to be fin-
ished with pine. The lower bedroom
is to be finished in white cedar. This
fine home will be finished probably in
about six weeks.

Prof. H. H. McMath, principal of the
high school, expects to occupy his
new residence on South Birch street
about Sept. 1. The contractor, J. A.
Barrows, has almost finished with his
work, and the inside decorator, M. R.
Dwyer, is now staining the dining-
room and library a golden oak. The
upstairs bedrooms have been finished
in white enamel with mahogany
stained doors and window trimmings.
R. R. Raymond has started in upon
remodeling the J. R. Smith residence on
North Main street, purchased by
him. He will reconstruct the interior,
take a wide porch of the Colonial
style, being like columns.

CALIFORNIA PURE WINE STATE

WASHINGTON, Aug. 16.—That Cal-
ifornia is the only state in the union
that can produce a pure wine from
grape juice was admitted yesterday be-
fore the senate finance committee by
T. J. Landon, representing the Eastern
wine producers. He said that, owing
to the acidity of eastern grapes,
palatable wine cannot be produced
east of the Rocky mountains without
the addition of large quantities of
sugar and water. The hearing demon-
strated that if the United States is to
continue producing pure wines, the
California industry must be fostered
rather than hampered by hostile legis-
lation.

PLACENTIA SOON TO HAVE CANNERY

Work on Building Under Way;
Much Other Building
Activity

Building activity in Placentia is in-
creasing steadily week by week in
value and volume of buildings erected
or in course of construction. The in-
dications are that this happy state
of affairs will continue indefinitely.

While building operations the past
few months have been confined to bun-
galows and cottages, the present week
has been made a red letter date by the
beginning of work on an industrial en-
terprise, a factory for the canning of
only of tomatoes and other vegetables,
but which marks the beginning of the
utilization of hitherto almost wholly a
waste product in the citrus industry—
cull oranges.

Work is also to begin shortly on a
two-story brick business block adjoin-
ing the Stradley Block.

Contractor Horn has begun work on
a handsome six-room bungalow at the
corner of Center and Walnut streets
for John Sprague. The ground plan is
424 by 31 and the structure will cost
about \$1800. It will be thoroughly
modern with all the latest built-in fea-
tures. A good barn will also be erect-
ed on the rear of the lot.

Contractor Brooks has just com-
pleted an attractive six-room cottage
for John Standish in the Kramer
subdivision and has begun work on an
up-to-date bungalow on Main street
for George Milner. It will contain
four rooms, bath, screen porch, cabi-
net kitchen and other comfort, time
and labor conserving conveniences.

The new Cline bungalow is fast
nearing completion and will be a
model of comfort and convenience.
Contractor Gannett is completing a
small house for Ben Menos and C. F.
Kahn is building an addition to this
home on Melrose avenue.

Plans are being made and estimates
asked for on over half a dozen other
residences—Placentia Courier.

BUILDING PERMITS ISSUED DURING THE LAST WEEK

To Santa Ana Hospital Association,
with H. A. Skiles contractor, addition
to hospital, \$2,000.
To Henry Menor, with N. L. Gal-
braith contractor, alterations in resi-
dence at corner of Culbin and Baker
streets, \$450.
To H. E. Woodward, with J. J.
Woodward contractor, 6-room bun-
galow on Buffalo street, \$2,000.
To Tom Greer, with R. Adams con-
tractor, addition to residence at 1919
Highland, \$200.
To A. Loh, with W. N. Carter, Jr.,
contractor, 4-room bungalow at corner
of Melroy and First street, \$1,000.
To E. R. Allen, with McBurney con-
tractor, repairs at 602 East Pine, \$50.
To G. B. Patton, with John Freeman
contractor, 6-room house on West
Highland tract, \$600.
To D. W. Wiley, dwelling at 621
Nakomis, \$250.
To J. R. Condon, with C. McNeill
contractor, addition at 295 East Fourth
street, \$400.

FULLERTON PERMITS FULLERTON, Aug. 15.—The building superintendent during the past month issued permits for buildings in Fullerton costing \$53,275, which shows an increase over the same month last year.

Improving Streets
Huntington Beach News: The
Huntington Beach Company is doing
extensive road and street work on its
tract surrounding Huntington Beach.
Garfield avenue is being improved
from its intersection with the county
boulevard to the western edge of the
tract. Alameda street is being im-
proved from Garfield north through
the farm subdivision, which has just
been sold out by the Sharrar Invest-
ment Company. These roads are being
put in the best of condition for
driving.

The Huntington Beach Company
will begin this week the grading of
Smelter, Westminster, and Crystal
avenues, which run through a tract
being laid out in one-acre lots. This
is one of the most attractive stretches
of ground on the Huntington Beach
mesa.

New Exhibits
Recent contributors and contribu-
tions to the Chamber of Commerce
follow: J. W. McNeill, Chestnut ave-
nue, cluster of tomatoes; P. T. Smith,
two large bouquets of dahlias and yellow
daisies from the Santa Fe gar-
dens; Wm. H. Desmond, 1315 C street,
one dozen large peaches; R. B. Cook,
from his San Juan Capistrano ranch,
two clusters of walnuts, eleven in
each cluster; Miss Cartmill, large
bouquet of lavender hills; H. F. Rog-
ers, cluster of German grapes, and a
set of nectarines, Alberta peaches, and
pears; D. W. Hicks, 702 West Second
street, lemon cucumbers, and scarlet
runner beans; Miss Nellie Wilson, 1022
West Fifth street, handsome bouquet
of Pennsylvania day lilies; H. C. Hum-
phrey, 1406 North Main street, rice
peppercorn, one of the stalks measuring
eight feet nine inches to the top of
the ear; Harry E. Lash, cluster of
peaches from 15-months-old tree.

IT CURES WHILE YOU WALK

Use Allen's Foot-Powder, the antiseptic
powder to be shaken into the shoes. It
instantly takes the sting out of corns,
burns, feet, ingrown nails, and bun-
ions. It's the greatest comfort discovery
of the age. Allen's Foot-Powder makes
feet new shoes feel snug. Ladies can
wear shoes one size smaller after using
it. It is a certain relief for sweating, cal-
lous and swollen, tender, itching feet.

sted, Le Roy, N. Y.

PLACENTIA CANNERY MARKS A NEW ERA IN CITRUS INDUSTRY

Placentia Courier: Monday morning
Contractors Christensen & Hanson be-
gan work on two structures to be oc-
cupied by the Placentia Canning Fac-
tory. The site for the buildings is ad-
joining the Santa Fe right of way at the
Melrose avenue crossing, on the
south side.

The main building will be 30x50,
with a large basement. A warehouse
28x30 will go up along the railway
switch spur for convenience in unload-
ing supplies and shipping the manu-
factured products.

This plant, it is confidently believed,
marks a new era in the citrus indus-
try. In the animal packing industry
the byproducts from former waste
products are the profit-makers. There
is much waste in citrus growing. Private
and state and national experts
are experimenting and studying to
devise ways and means to save this
waste. Large appropriations to this
end have been made by state and na-
tion. The Placentia Canning Factory
means that a partial solution at least
of this problem has been made. The
same process, discovered by long ex-
periment, and practically the same ma-
chinery that will be used in canning
tomatoes two months in the year, will
be employed in converting cull or-
anges into preserved fruit that will re-
tain the flavor and color of the original
fruit and keep for an indefinite period.
Any fruit or vegetable preserved by
this new process is superior in these
qualities to that canned by the old
methods.

The establishment of this plant in
Placentia is a decided achievement.

Unclaimed Letters

The following letters remained un-
called for in the postoffice at Santa
Ana, Cal., for the week ending Aug.
16, 1913.

LOS ANGELES TO DOUBLE
LIQUOR LICENSE PRICE
LOS ANGELES, Aug. 15.—The city
council yesterday unanimously adopt-
ed a resolution calling for an amend-
ment to the liquor ordinance, doubling
the liquor license fees. The liquor
selling zone may be extended, al-
though it is doubtful if the council
will permit more than the present
number of licenses—200.

The rate is now \$100 a month for
retail licenses and \$250 a month for
hotel liquor licenses. President Whit-
ten introduced the resolution. He
said it would mean an increase of
approximately \$800,000 a year in the
city's revenue. The matter of dou-
bling all classes of licenses was refer-
red to a committee of the whole for
hearing, investigation and report.

FINE NEW SCHOOL BUILDING AT EL MODENA IS DONE

Orange Post: Some time during the
spring of 1912, the trustees of the El
Modena school, finding the old school
house inadequate to the growing needs
of the district, called an election in
June of that year and the district voted
\$25,000 to build a new up-to-date
structure.

Messrs. B. F. Merrill, C. Stanfield
and L. F. Danner were the members
of the board of trustees at the time
and spent many days looking into the
matters pertaining to the best inter-
ests of the building.

The old school site being too small
for a new building and play grounds
it was decided to purchase a new one,
which was done and the new, fine, big
blue-brick building at the corner of
Alameda street and Chapman avenue
indicates the place purchased. The
price paid was \$15,500.

For various reasons the first trust-
ees resigned and the personnel of
the board has changed. Herman E.
Coate, J. F. Stone and Mrs. R. W.
Jones being placed in charge of af-
fairs to carry forward to the best of
their ability the building of the school
house.

Three architects submitted plans
and H. M. Patterson of Los Angeles,
who planned the First Presbyterian
Church of Orange, was the successful
man.

P. W. Edwards, who also had charge
of the work of the Orange Presby-
terian Church, was the successful bidder
for the contract. His bid was \$15,655
and only a few hundred dollars have
been added to this price for the few
unexpected things that are always
arising when a building is in process
of construction. This bid did not cov-
er the heating plant, electric fixtures,
sidewalks, leveling, architect's fees
and various other bills, which ate up
all of the surplus funds to the credit
of the district.

There are six large school rooms,
which will each seat from forty to
forty-five pupils. Good, large cloak-
rooms are placed in easy access to the
school. In the center of the school
his left into the principal's private
supply room close at hand for each
teacher. In the center of the school
floor of this one-story brick school
building and basement is a large audi-
torium, which will seat from 300 to
350 people. Wide corridors run around
three sides of this room, separating
it from the school rooms. There is a
large stage at one end and the room
is well lighted with skylights.

As one enters the building through
the spacious entrance he can step to
his left into the principal's private
office or to the right into the library,
which is large enough to hold all of
the books which this district with the
Santiago and Silverado districts,
which have merged into it, have been
accumulating for the past twenty-five
or thirty years.

The school house, which has been
painted and tinted throughout, may
perhaps impress one as strikingly
green, but it has the advantage of
giving the impression of coolness and
also of being good for the eye of the
pupils.

The basement is large and contains
store rooms, play rooms and toilet
rooms and is light and airy enough to
be fitted up for domestic and manual
training departments at any time the
district may see fit to ask for it and
to vote the funds to make this ad-
vance movement.

Mr. Edwards, the contractor, has
completed his work except in a few
minor details caused by some delays
in receiving material. There has also
been much delay with regard to put-
ting in of electricity for the lights and
the heating plant, caused by the slow
way in which matters work out in of-
fices of big corporations; but it is ex-
pected that everything will be in shape
long before it is needed.

School will begin in the new build-
ing with Edward Abbott as principal;
Miss Lulu Evans, assistant principal;
Miss Neva Hardy, teacher of the third
and fourth grades; Mrs. Ida S. Gro-
ell and Miss Georgia White, each with
her little group of first and second
grades.

ANAHEIM INTENDS TO DO MORE PAVING

Anaheim Plain Dealer: By the adop-
tion of resolutions at its meeting on
Thursday night, the city trustees an-
nounced it to be their intention to
order the work of paving Lemon and
Center streets.

The first named street is to be im-
proved from South street to North
street, a distance of 6000 feet. Cen-
ter street will be paved from the Santa
Fe depot to the city limits on the east—a distance of 1100 feet—where
it will connect with the county road,
which is also scheduled for early pav-
ing. The paving material will be con-
crete asphaltum, the same as is now
being used in the improvement of Los
Angeles street.

Another street to receive improve-
ment in the form of paving is three
blocks on Philadelphia street, between
Center and Adole streets. This im-
provement was asked for in a peti-
tion to the trustees by Philadelphia street
property owners, and was granted.

If you don't wait to see the 1914
Buick you will be sorry, and if you
don't wait, and buy a 1913 car we will
be sorry, but for you. Orange County
Garage, 405-407 E. 4th St., Santa Ana.

Carpet Sweepers

Who wants to buy a Duplex Hand Vacuum Cleaner at a big discount?
This cleaner works like a common carpet sweeper, but gets the dirt
through suction produced by a strong bellows. It will clean a carpet
as well as an expensive electric cleaner. The Duplex sells at \$10.50.
For a few days we are going to make a price of \$7.50. Take one and
try it—use it on a dirty carpet to see what good work it does—no
harm done if you don't keep it.

PRENATAL CARE

"Prenatal Care" is the title of a monograph just issued by the Children's Bureau of the Department of Labor. It is the first of a series of bulletins to be issued by the bureau on the care of children. The reasons for its publication are set forth by Miss Julia C. Lathrop, chief of the bureau, in her letter transmitting the monograph to Secretary Wilson. The letter says:

A preliminary survey of the field prescribed by law for the bureau's investigations showed at once the urgency of the question of infant mortality. The United States Census Bureau estimates that 300,000 babies less than one year old died last year in this country, and it is authoritatively stated that at least half these deaths were needless. Accordingly the bureau's first field inquiry is upon the subject of infant mortality. The studies preliminary thereto have induced us to begin our series on the care of children with this monograph on Prenatal Care, for considerations of which the following statement is significant.

The latest reports of the Bureau of the census on mortality statistics show that slightly more than 42 per cent of the infants dying under one year of age in the registration area in 1911 did not live to complete the first month of life, and that of this 42 per cent almost seven-tenths died as a result of conditions existing before they were born or of injury and accident at birth. Of those that lived less than one week about 83 per cent died of such causes, and of the number that lived less than one day 94 per cent died of these causes.

Thus the Children's Bureau was drawn inevitably to begin its contemplated series of monographs on the care of children by a statement regarding prenatal care for mother and child.

The preparation of such a statement has been requested by the National Congress of Mothers and by members of other representative bodies of women. It has been written by Mrs. Max West, of the staff of the bureau, from the standpoint of a woman who has university training, experience in government research, and who is herself the mother of a family of young children. It has been prepared after careful study of the literature of the subject. It has been read and criticized by a large number of well-known physicians and nurses, and by many mothers. To mention by name all those to whom the bureau is indebted for valuable aid in its preparation would be impossible, but special appreciation may be expressed of the generous assistance of Dr. J. Morris Simons, professor of obstetrics and gynecology in the University of California.

This monograph is addressed to the average mother of this country. There is no purpose to invade the field of the medical or nursing professions, but rather to furnish such statements regarding hygiene and normal living as every mother has a right to possess in the interest of herself and her children. A standard of life for the family high enough to permit a woman to conserve her strength for her family, if she knows the facts essential for her guidance, is necessarily taken for granted. The attempt is made here to present some of the most important of these facts.

PITTSBURG'S LAND TAX

The London Board of Trade's careful investigation, as summarized by the Saturday Evening Post, showed that "workingmen's rents in Pittsburgh were among the highest in the United States, ranging much above Chicago and Philadelphia, for example. Average land values per acre there are only a little less than in New York."

But up to two years ago considerable vacant property in the Steel City was obliquely classified as "agricultural lands," and taxed at only about half the rate for land that had been put to use by erecting buildings on it. This legislative inducement to hold vacant lands for speculation, while the working population was crowded into congested and very costly quarters, was wiped out in 1911. This year Pittsburgh has gone that improvement one better by making the tax rate on land double the rate on buildings—the readjustment to be applied gradually. Vacant land, of course, brings the owner no revenue; but his taxes will be twice what he would have to pay on the same valuation embodied in a revenue-producing building. Hence there will be an inducement to bring all the land in the city into use by putting improvements on it, and that ought to have some effect

Pacific Coast News Letter

WASHINGTON, Aug. 16.—Public lands that have been surveyed and are unreserved and non-irrigable are to be designated for entry as enlarged homesteads, under a new ruling by Secretary of the Interior Lane. Large tracts will be so designated at once, and the entryman will have to determine the availability of each quarter-section of land when he visits the district land office. The recent practice has been that the department waited for petition in each case before it designated a tract as ready for enlarged homestead entry.

A gain of 13 per cent in metal production was scored by Nevada in 1912 over the preceding year, according to the geological survey report issued today. Gold, silver, copper, lead and zinc produced from the mines of the state were worth \$38,358,732. Gold production was far below normal. Only \$12,456,180 of the yellow metal came out—a decrease of 35 per cent. The Goldfield district was \$4,000,000 short of its \$10,500,000 output for the year 1911, while Nye county, Tonopah and the Comstock mines failed to keep up to their previous mark. Silver production gained \$1,840,000 for the year, and copper rose from \$8,422,000 in 1911 to \$14,268,000 last season. Lead, worth only \$877,000, was nearly five times as much as in the year before. Zinc came up from \$202,000 to \$219,000.

Inquiries concerning the Pindexter bill for government operation of coal mines in Alaska have demonstrated a widespread public interest in this plan, which may later be shared by the members of congress. Just at present the bill seems to have no chance of passage, because the idea of government ownership has not been written in the party platforms. The senators and representatives are willing,

if the administration requires it, to vote for a government-owned railroad in Alaska, but beyond that point they apparently will not venture.

When the Hetchy bill comes up this week in the house, it will have one lone opponent, Representative Mondell of Wyoming will seek to strike out the provisions for federal control of water power. The bill is scheduled to pass without delay. In the senate progress will be slower. Senator Smoot is to take up the fight against federal jurisdiction over water and power, claiming for the states complete authority to dispose of both. He will be joined by senators from several other states in which power companies are strongly entrenched. A clear majority in the upper house is counted for the measure.

The latest job given John I. Nolan, the San Francisco trade unionist, in the house, is the care of the convict labor bill drafted by the national legislative committee of the Progressive party. Another member of the Progressive group was to have introduced it since Nolan had the "eight-hour bill," but a little discussion showed that Nolan knew more about convict-labor laws and the industrial conditions that make them necessary than did any other of the Bull Moose.

Senator Works has gone home to Los Angeles for a rest, and will not return during the present session unless banking and currency legislation seems likely to pass. He has delivered half a dozen speeches this summer, and has done a vast amount of work upon the lemon tariff. As the Democrats have a safe majority, and as the passage of the tariff bill is merely a question of getting through the talk and taking the roll-call, Senator Works sees no public advantage in his staying here.

WOMEN'S FADS AND FANCIES

By Margaret Mason

NEW YORK, Aug. 16.—These are the days when a great deal is coming off in the name of Fashion. Just a little bit taken from what you got, leaves just a little bit less. Over in Gay Paree at the Grand Prix the manikins parading in the latest creations were racier than the races. Many appeared in lace gowns draped over delicately tinted silk tights, and the downfall of the petticoat was supreme.

This seems a bit extreme especially with the cool days of autumn so imminent, but after all you will still have your pride to keep you warm. There is a perfect passion for transparent materials and some of the resulting gowns are so sheer that they are simply sheer audacity. Verily if Salome and her seven veils should walk up Fifth avenue today, the 1913 beauty would gaze at her askance, murmuring, "What an overdressed frump. Why the other six?"

Even as the gowns have shed linings and petticoats, so have the hats cast off their crowns. A ruffle of pleated mulline or a band of wired tulle passes muster for a hat nowadays, and the whole top of your pate is left exposed to the elements.

The Oriental trend is again to the fore. Much gold and silver trimmings are used on street costumes, and beads and spangles galore. There is a new wired tulle that flares out partly just below the hip line for all the world like a lampshade or a hoop skirt nipped in the bud. It is the Parisian version of a Persian fashion. Tunic-like, however, will be more popular for common or street car wear, as one can scarcely picture a wired tulle in its pristine glory emerging from a subway crush.

Along with the many other fads and fancies adapted from the Far East, the harem veil for morning has the distinguishing mark of being really sensible. The veil is worn draped full and falling from just below your goggled eyes. It protects the throat and nose admirably from the dust of motor travel and at the same time swatches you in all the mysterious glamor and charm of an odalisque or houri.

With the zest for turkey-trots and in preventing a continuous rise in rents.

The same expedient should be adopted in modified adaptable form in every city in the whole country.

EIGHT FOREST FIRES STARTED BY LIGHTNING

WILLOWS, Aug. 16.—Mountaineers of the Coast range declare the most terrific electrical storm of recent years has occurred there.

Lookouts in the service of Supervisor D. P. Godwin of the California National Forest, were nearly driven from their stations, so fierce was the lightning.

Eight fires were started in the vicinity of Black Butte in a few moments. Forest fire guards put them out before great damage was done. Several trees, which were struck by lightning and set on fire, were permitted to burn, the ground around them being cleared of rubbish, to prevent the flames from spreading.

The People's Forum

Brief communications will be published under this heading, provided they are signed by the author, or the author's name be sent to the Editor as an evidence of good faith. However, the Editor shall be the sole judge as to the propriety of publishing any communications, and the Register assumes no responsibility for any views that may be expressed in this column.

Somewhat Searching

I quote from Register Aug. 15, a statement in regard to child labor: "Child Without Shoes is Exempt" "No children in the state of California will be forced to go to school if they have no shoes to wear, no food in their stomachs and not sufficient clothes to keep them warm."

This is mentioned as one of the laws which make California statutes the best of any on the child labor problem.

If a child's parents are so poverty-stricken that they can't feed or clothe him a kind, paternal state will excuse that child from being educated.

This is a good example of much recent reform legislation. We make a law for compulsory attendance in schools and then we happen to notice that the conditions of labor are so hard that many children cannot even be fed or clothed decently, so we must get busy and qualify our law.

We make laws in regard to child labor and then we find economic conditions demand this form of labor, so we must qualify our laws again.

It would not do for the state to go to the root of the evil and find out why labor is not paid enough so that every child could be clothed and fed and educated.

This is not the province of the state yet, but it ought to be. Before we ever made an eight-hour day for women we ought to have made a minimum wage so we would not legislate any woman to go hungry.

When the state begins to fix hours it must also begin to fix the value of labor and it must see that labor gets its pay.

This is state Socialism, which the Progressives are inaugurating as fast as they can and it will lead to real Socialism, which means collective ownership and democratic management of our industrial as well as our political system.

Thanking you for the space,

HUGH M. DAY.

ARTHUR PELKEY TO FIGHT JACK JOHNSON

SAN DIEGO, Aug. 16.—Tommy Burns, manager of Arthur Pelkey, announced today that he has agreed to match Pelkey with Jack Johnson at Paris. He exhibited a cablegram asking if he would accept a date. He explained that he will let Pelkey fight the negro once, and then draw the color line whether Pelkey wins or loses.

TENNIS CUP HELD UP BY CUSTOMS

NEW YORK, Aug. 16.—American tennis enthusiasts are angry at customs officials for holding the Davis tennis trophy, which America won from England at Wimbledon recently. The American players arrived yesterday with the cup, and the customs officials refused to permit it to be landed until a ruling was made as to whether the cup was away from America long enough to compel the duty to be paid.

DESERT FISH FARM PROVES A SUCCESS

SAN BERNARDINO, Aug. 16.—San Bernardino county's first fish farm is a success. The farm is located on the Mojave river near Victorville and is owned by Frank Rathburn and William Almadge. Last May they stocked the farm with 100,000 rainbow trout, which they procured in Utah. The tiny minnows have now grown to be about four inches long and soon will be ready for the market.

"Tales of Honey and Tar" from West and East

Wm. Lee, Paskenta, Calif., says, "It gives universal satisfaction and I use only Foley's Honey and Tar Compound for my children." E. C. Rhodes, Middleton, Mo., writes, "I had a racking lagrippe cough and finally got relief taking Foley's Honey and Tar Compound." Use no other in your family and refuse substitutes. Rowley Drug Co., and White Cross Drug Co.—Advertisement.

BURLESON STARTS NEW PARCEL RATES

Sends President Box of Peaches Along With Explanation of Benefits of Change

WASHINGTON, Aug. 16.—Postmaster-General Burleson inaugurated the new regulations changing the parcel post rates and weight limit, by mailing President Wilson a box of fine Georgia peaches. The box, which weighed seventeen pounds, with a postage charge of 13 cents, was delivered at the White House early in the day. With it came a note, in which the postmaster-general said:

"This is an illustration of the opportunity which has been opened to the farmer, the horticulturist, the manufacturer and to every citizen of the valuable adjunct of the postal service country who will avail himself of this in the promotion of the commerce and happiness of our people."

The new regulation raises the maximum weight of parcel post packages from eleven to twenty pounds, and makes certain changes in the rates. The local delivery rate of postage was reduced from 5 cents for the first pound and 1 cent for each additional pound or fraction thereof, to 5 cents for the first pound and 1 cent for each additional two pounds or fraction thereof. The first and second zones, covering a radius of 150 miles from each local postoffice, were consolidated and rates in them reduced from 5 cents for the first pound and 3 cents for each additional pound (the first zone rate) and 6 cents for the first pound and 4 cents for each additional pound (second zone rate) to 5 cents for the first pound and 1 cent for each additional pound.

AUSTRIAN EMPEROR A PRIZE LINGUIST

PARIS, Aug. 16.—The aged Emperor Joseph of Austria speaks more languages than any other monarch, according to a newspaper here. He speaks German, French, Hungarian, Czech, Polish, Serbian, Croatian, Ruthenian, Dalmatian, Roumanian and Italian. He knows a little Hebrew but does not speak English. King Ferdinand of Bulgaria knows several Slav dialects, French, German, Russian and English. King Peter of Serbia speaks the same languages. The czar of Russia is master of scores of Russian dialects, French, German, English and several Slav dialects. Kaiser Wilhelm speaks German, English, French, Latin, Russian and Polish fluently. King Alfonso of Spain speaks Spanish, English and French. There appear to be no statistics as to the linguistic abilities of King George of England.

PROHIBITION ORDINANCE REFERRED TO VOTERS

SAN BERNARDINO, Aug. 15.—The liquor interests have filed a part of the big petition in order to give the county clerk an opportunity to check the names. The referendum. The county prohibition ordinance recently adopted by the County Board of Supervisors will be held in abeyance until the people shall have the opportunity to vote on the measure. boosters have about 2500 signatures, or about 1500 more than is necessary. The supervisors are compelled to call an election now or wait until the general election in 1914.

SOCIETY

POMONA COLLEGE CLUB

Students and Ex-Students of the Institution Form an Organization

On Friday evening Misses Mabel and Ada McFadden entertained the students of Pomona College who are living in or near Santa Ana. During the evening an organization was formed under the name of the Pomona College Club of Orange County. Mr. Arthur J. McFadden was elected president of the organization, and Miss Rosamond Norman was made secretary.

Those present of the Alumni were Mr. and Mrs. A. J. McFadden, Florence Bowers, Mabel McFadden, Evelyn Nunn, Ada McFadden, Louise Bangs, Irene Beatty, Verna Peterson, Lillian Norman, Rosamond Norman, Will Jencks and George Ash.

Those who are at present in Pomona College were Lamont McFadden, Edwin McFadden, Frances Conder, William Andrews, Alice Clausen, George Clark, Eileen Tubbs, Mildred Mansur, Hazel Shallenberger, Nell Marie Remsburg, Ralph Vawter, Nina Harbour.

The following are to go to Pomona for the first time this September: Ruby Campbell, Louise Tubbs, Elsie Wingood, Georgia Smith, Alice Cranston, Alberta Black, Mabel Mansur, Selwyn Sharp, Marshall Greathouse.

For several years Santa Ana has been especially well represented in Pomona, and one of the purposes of this new organization is to see that this representation is kept up.

Past Matrons Take Trip

The Past Matrons' Association will enjoy the beauties of the Triangle Trolley Trip next Tuesday, Aug. 19, taking the 11 a. m. car. Please buy tickets Monday between 2 and 3 o'clock at the Pacific Electric station. Mrs. Bessie Robinson, president; Mrs. George Balderston, secretary.

Returns From Alaska

J. H. Rankin returned Thursday evening from an excursion trip to various points in Alaska. Mr. Rankin left Santa Ana on July 22 and went by rail to Seattle where he took the steamer for the north. The trip was made by the inland route whose scenery many experienced travelers said far exceeded any they had seen in the old country. Prince Rupert, Ketchikan, Sitka, Juneau, Skagway, Taku Glacier and many smaller points were visited. The Treadwell mine, the largest in the world, and several immense salmon canneries were also visited.

Mr. Rankin is very enthusiastic over the beauties of the trip and says it is well worth any one's time and money. The weather was very pleasant and the trip was in every way very enjoyable. Altogether 3000 miles were traveled on the water, the sailing time being eleven and a half days.

Lawn Party Held

The Epworth League of the First Methodist church enjoyed a lawn party at the home of Miss Thelma Price at her home at 815 F street. The lawn was gaily illuminated with numerous Japanese lanterns. Many outdoor games were played. Refreshments of watermelon and muskmelon were served.

Entertains Children

The Woman's Foreign Missionary Society of the First Methodist Church entertained with a children's party yesterday afternoon between 3 and 5 o'clock at Birch Park. Their guests were the King's Heir and the Little Light Bearers. Games were played by the children. The duet by little Miss Margaret McElree and Everett McElree was much enjoyed as was the reading by Mrs. F. H. McElree. Refreshments of fruitade, waters and animal cookies were served. Eight new members were added to the Little Light Bearers at yesterday's meeting. Many of the mothers of the children were present.

Honor Departing Friend

To show the esteem in which he is held by his many friends, a number of the friends of Percy Richards met last night at the home of Mrs. Ella Pye at 801 French street. The evening was a rare musical treat to all who were present.

Dainty decorations of pink roses and anemones were used in the elegant home. Refreshments of pineapple iced and wafers were served.

The program was exceptionally good, everyone endeavoring to make this farewell meeting as enjoyable for

Mr. Richards as possible. The piano solos by Miss Ruth Deardorff and Mrs. Arnold Peck were splendidly rendered. The readings by Ernest Crozier Phillips were also very much enjoyed. The vocal solos were given by artists in every sense of the word. Those who sang were Miss Irene Balcom and Messrs. Benjamin Percy Rice, Percy Richards, Lloyd Sharp and Raymond Miles.

Informal Dinner Party

Mr. and Mrs. E. S. Gilbert entertained a number of friends last evening with an informal dinner party. Roses and begonias were used in the pretty decorations, the table having a centerpiece of pink begonias and ferns. Music and games were enjoyed after the delightful five-course dinner. Covers were laid for Mr. and Mrs. Walter Vandermaast, Mr. and Mrs. Walter Prince, Mr. and Mrs. R. E. Williams, the host and hostess, Mr. and Mrs. Gilbert and daughter, Eugenia, and Mrs. Gilbert's aunt, Miss Bell, of Fort Worth, Texas, who is visiting in Santa Ana during the summer.

Teacher Entertains Class

The Intermediate Girls of the Immanuel Baptist church met last evening at the home of their teacher, Mrs. Baker, at 802 West Fourth street. The class reorganized with the following officers: President, Alice Wood; vice president, Gladys Shallenberger; secretary, Marjorie Baker; assistant secretary, Helen Teel; treasurer, Martha Williams; reporter, Audrey Pond. After the election a social time was enjoyed and refreshments of punch, candy and cake were served.

THE 1914 CADILLAC HAS

ARRIVED IN THE CITY

Contrary to the usual order of things, "automobilically" speaking, the Cadillac this year is one of the first 1914 cars to make its appearance on the coast. H. H. Kelly, the local Cadillac agent, is very enthusiastic about his cars this season, the first installment of which—a demonstration car—arrived this week.

Advance Cadillac literature led dealers and public to expect something out of the ordinary in the way of Cadillac development, and in this the company has apparently made good. The big feature in the Cadillac improvements is of course, the two-speed direct drive axle, which gives two speeds each on high, intermediate and low gears, without shifting the levers, making a total of six speeds forward.

STRUCK BY AN AUTO

Huntington Beach News: W. H. DeHette, who is employed here in the garage of Graham & Son on Main street, sustained severe injuries about the chest and the dislocation of several ribs as the result of an accident which occurred there Friday evening at 8 o'clock. A car on which he was working, was accidentally struck by another auto which was entering the garage. DeHette was thrown under the incoming car and crushed against the wheels.

A Land of Opportunity

Humboldt County, the least developed in California, presents splendid opportunities to investors and homeseekers. Men and money are needed for dairying, small fruit growing, truck farming, general farming and apple raising. A country of wonderful resources and ideal climate in which the first railroad is now building. All inquiries promptly answered by the Humboldt Promotion and Development Committee, Eureka, Calif.

ANNOUNCEMENT

THE SOUTHERN COUNTIES GAS COMPANY announce that they have accepted the resignation of Mr. Robert Cavenagh, formerly their district agent, whose services for the company are now terminated in accordance with his request. All business matters pertaining to gas service, we respectfully ask our patrons to communicate with our office in the Masonic Temple Building, 501 North Sycamore Street, Santa Ana.

SOUTHERN COUNTIES GAS CO. W. J. McFarland, Secretary.

Minister Praises This Laxative

Rev. H. Stubbins of Allison, in praising Dr. King's New Life Pills for constipation, writes:—"Dr. King's New Life Pills are such perfect pills no home should be without them." No better regulator for the liver and bowels. Every pill guaranteed. Try them. Price 25c, at all druggists.—Advertisement.

Dr. A. T. Vance, osteopath, offices 114½ East Fourth St. Sunset 928

Personals

TO THE PEOPLE OF SANTA ANA—Greetings: We take pleasure in announcing our presence among you, ready to do a general realty business. Your interests are our interests, and enthusiastic in the future of this section, engendered during a previous residence here, we offer our hearty cooperation in all of its hopes and efforts.

To not only our local patrons, but also the many homeseekers who already have their eyes upon this south country, we wish to call especial attention to our twenty years' experience in actual growing of fruit, and are more than ready to offer, free, estimates and advice pertaining to any phase of the orange, lemon, and alfalfa industries, based on our own thoroughly practical, personal knowledge. Furthermore, we desire to confirm in our future dealings, our policy to stake our reputation upon every transaction we make.

Come in and talk over the prospects and allow us to present you with our little souvenir.

Sincerely yours,

BUNTON REALTY EXCHANGE, "Where the little model farm is in the window"—at 116 E. Fourth Street.

BETTER RATE NOW SECURED

J. C. Metzgar, secretary of the Chamber of Commerce, has been informed that the efforts to get better express rates on small packages of fruits, nuts and vegetables shipped to eastern points have been successful, the concession being secured through the local Wells Fargo Company. When Metzgar took the matter up, it had been the custom to charge twenty-five cents extra on each package sent East when that package had to be transferred to another express company. That extra twenty-five cents has been knocked off except by two eastern express companies.

LOANS PAINTINGS TO BOOSTER BODY

Mrs. Ada F. Champ, the artist, has loaned the Chamber of Commerce two fine paintings made at San Juan Capistrano Mission. One of these Mrs. Champ values at \$500 and the other at \$350. They have been placed upon the walls at the Chamber of Commerce, where they have been greatly admired.

KILL A LARGE WILD-CAT IN FOOTHILLS

Anaheim Plain Dealer: Assembly man Hans Weisel and his brother, Fred Weisel, while on a hunting expedition Sunday in the Puente hills, killed a large wildcat, which at first showed fight, but finally succumbed to a few well directed charges of bird shot. The feline was a large one, measuring 37 inches in

SPECIAL WASHINGTON LETTER

By Burton K. Standish.

WASHINGTON, Aug. 16.—The Hon. William S. Howard, representative in Georgia, doesn't like the question which the examining board asks all candidates for the United States Naval Academy, and he recently delivered himself of his opinions on the subject and the reasons why, before a house.

Representative Howard left absolutely no doubt in the minds of his own congressmen as to his exact and earnest thoughts about some of the range examination questions asked of candidates upon which the representative who came from the state is famous by Ty Cobb, II with both the head and feet was, "Trace the growth of democracy in Rome, previous to the Punic war."

Why shouldn't the candidate instead ask to trace the growth of Buddhism in Pennsylvania previous to the last presidential election," demanded the fiery Southerner. "Knowledge of democracy's growth in Rome is just about as helpful to a future sea-fighter as would be the knowledge of what's inside of lima beans," in a recent entrance examination candidates were asked to locate, among other places, Agrigento, Puntan, Pechili, Finisterre, Kattagat, Brahmaputra. They might as well have been asked to locate Dogfish, Buzzards Roost or Sundance, which a \$50,000 public building was added by the senate last year.

And why should it be expected a candidate have crammed into his brain all the reasons why the legion was tactically superior to the Macedonian phalanx? Old Gen. Caesar himself, probably didn't know why. He probably merely knew his legions had a better batting average than the Macedonian phalanx. Still another silly question asked in entrance papers was regarding the spread of Christianity in the

"But perhaps the worst of all was the question asking for complete details of Washington's campaign in New Jersey during the winter of 1775-76. The bright young man who called this question to my attention, wrote for twenty minutes before he suddenly realized that Washington wasn't in New Jersey during that time. It was merely a 'catch question,' of the kind they use to trip up the small boy in grade school."

"It isn't at all surprising," continued Representative Howard, "that one boy became facetious in answering the question as to why science could not utilize the waters of Niagara Falls with the time honored answer, 'Damn it they can't.' And my heart goes out to the young man from Texas who, after struggling with a score of foolish, senseless questions, wrote on his paper, 'You all can go to hell; I'm on my way back to Texas.'"

Howard quoted a number of reasons given for not accepting candidates who have passed the mental examination. They were unscientific definition—meaning poor dentistry; ingrowing toenails; ozena—which means sore nose; and exacerbation of pathogenic symptoms—which sounds bad but means very little.

"If these ailments were made lions in the paths of political honors," asked Howard, "how many of our leading congressmen and statesmen would we have here in Washington?"

The Georgia representative's remarks were made partly facetiously but they have made an impression. Senator and Representatives who didn't know about these matters, are talking about some means of changing the system of entrance examinations for Annapolis. It is the contention that under present systems, it is absolutely necessary for a student to "crank like sixty" at a special preparatory school before he can pass such an examination. This "cranking," it is conceded, never means obtaining real information that lasts, but only enough

to get through the exam with.

In discussing the case recently, Howard told of a Brooklyn boy, whose father, a warrant officer, could not afford to send his boy to a preparatory school. The boy was the best of his class at school. Four boys, who had stood far lower in the first boy's class attended the preparatory school and passed the Annapolis entrance examination while the first boy, "the son of a gunner," as Howard put it, failed.

"The son of a gunner failed; those sons of guns rejected him," said Howard.

It is Representative Howard's contention that only twenty-seven per cent of the 500 boys who took the entrance examination last year passed and that of that number more than half had to take a second or third examination. Representative Howard wants the curriculum and system changed "so that an ordinary human being can pass the examinations and have half a chance to remain at the institution after he gets there."

SPORTING BRIEFS OF THE WEEK

By Hal Sheridan

NEW YORK, Aug. 16.—Hitting the trail into what the Major League scouts call the bushes, is not hard to find pennant races close enough and exciting enough to suit the fight-invest baseball fan that ever lived. We are introducing first today the ancient and honorable Ohio State League. In this league four teams have been trying most of the season to cut each other's throats in a wild scramble for the pennant. Chillicothe, Charleston, Portsmouth and Lexington have never been separated by more than fifty points, while at times the margin between first and fourth place has been as low as twelve points. Imagine New York, Philadelphia, Pittsburgh and Chicago of the National League sandwiched into that small a space and try to figure out what would happen.

Five players have been sold to major league clubs during the present season and scouts from the big leagues are still combing this section of the bushes for material. Catcher Young, of Charleston; Pitcher Dasher, of Maryland; Pitcher Hovik, of Charleston, and Outfielder Southworth of Portsmouth have been taken up by the Cleveland Naps. They were picked up by Scout Billy Doyle, who was responsible for the introduction of Baumgardner, Wellman and Levereaux into last season's team. These players are now with the St. Louis Browns. Pittsburgh has purchased Pitcher Marnaux, of Huntington for fall delivery.

According to President R. W. Read, the league will finish the season with a good financial showing. The season has been somewhat wavering for some of the smaller organizations, but the only sign of distress in the Ohio State came from front along in June and it amounted to very little for the club soon recuperated and is now back on its feet. At least five of the clubs expect to close the season on September 21 with figures showing on the profit side of the ledger. The Hamilton club expects to make a garrison finish financially with the sale of two young players now in the fold but considered ripe and ready for faster company.

Jumping from the scene of the racing conflict just set forth and landing in Fort Wayne, Ind., we find the Central League and Louis Heitroner, just as busy as the league Heitroner has nothing to do but act as president, secretary and treasurer of the organization. He succeeded Dr. P. R. Carson, of South Bend, as head of the league after the disastrous season of 1912 when a twelve-club circuit was tried out. It didn't work. This season the league has but six clubs and is doing well, thank you kindly. Grand Rapids, Mich., looks like a safe bet for the pennant, but four of the other five clubs insist upon finishing second. Fort Wayne, Springfield, Terre Haute and Dayton have fought through the long days of July with little advantage to any one, and they will probably keep up the neck and neck race until the league closes on September 7. Evansville, Ind., is the only outsider, but we have seen that the fans of that town are certainly game. Attendance throughout the league has been good, but Evansville, the tail-ender most of the season, ranks with Grand Rapids, the choice for the flag in the matter of gate receipts. Can you beat it? You can't.

Had nothing happened in the Central League after early spring it might be said that the officials at least had considerable to look after. The parks at Dayton, Springfield, Fort Wayne, Terre Haute and Grand Rapids were turned into lakes and generally put on the blink by the floods. "Times" were fixed up, but that left Evansville as the only club not to strike some kind of hard luck. Playing no favorites, however, the elements negotiated for a wind storm a little later that wrecked the Evansville grandstand, making it a tie score all around. Outside of these little things the league has had easy sailing and expects to finish the season with money in the bank.

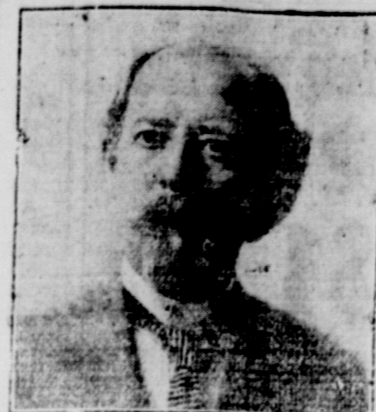

Some great ball players have come out of the Central League, and who will come in the future, the official believe. The Brooklyn Dodger bought Pitcher Pfeffer from Grand Rapids and Kansas City took Riley from the same club. Louisville, of the American Association also raised Grand Rapids and bought Clemens, Rouch, of Evansville, went to the Chicago White Sox; Kroy and Pick, of Terre Haute, have been signed by New York Yanks; Stewart, of Springfield, went to Indianapolis, and O'Mara, of Evansville, to Providence. And the league has more.

There are still four promising pitchers lurking about the various clubs, and catchers, infielders and outfielders as well, according to the big league scouts that have been dickering for and may be drafted or purchased before next year rolls around.

Some of them are Pitchers Bowman, Young, Gilbert and Wetzel; Catchers Snyder, and Hargrove; Infielders Fabrique, Koehler, Moe, Anderson and Keene, and Outfielders Tutwiler, Wickland and Tydemann.

Home made Coffee Substitute, made in Santa Ana. Trial package 10 cents. Every grocer in town has it.

Now Is Your Opportunity

COME AND BE CURED
FREE CONSULTATION

Dr. Edwin Raymond, German medical specialist of chronic diseases, who is introducing TELEVIDA, a new and successful method of curing the sick and afflicted.

Televida treatment is most effective in all cases of INACTIVE LIVER. It has saved many a man and woman from expensive, very dangerous surgical operations for "so-called" cases of Gallstones, Appendicitis, Dropsy, Gastric Ulcer of Stomach, Goiter, Rupture, Varicose Veins, Varicocele, Enlarged prostate Gland, Nervous Weakness and Impaired Vitality of Men and Women. Televida treatment never fails to give immediate relief in even the most stubborn cases of Rheumatism. It is a common sense, thorough method of treatment, based upon scientific principles and is the result of 20 years' experience in treating the sick.

Read what Mrs. P. H. Workman of 505 East Pine St., Santa Ana writes after taking my treatment only one week: "It is only six days since I began taking your treatment, and I feel a decided improvement already, and I feel quite sure that I will be a well woman before many days."

Still another letter from a grateful patient right here at home: "I am very much pleased for the good you have done me, and I feel it my duty to turn favors in your behalf when I can. Many thanks for the good you have done me, we will be good friends for all times to come."

Yours truly,
"W. A. CLESSION,
"Box 404, Fullerton, Cal."

From a grateful patient in Anaheim:

"I write you to let you know I have just enough medicine to last me through tomorrow. I am glad to inform you that I feel so much better. I think your medicine has worked wonders in my case, in so short a time. My appetite is improving, so I enjoy eating, something I could not say for over a year. Hoping to hear from you soon. Gratefully yours,
"McKEE CRILLY, Anaheim, Cal."

"Mrs. F. J. Wagner, R. F. D. No. 4, Box 119, Santa Ana, Cal., under date of May 16th, 1913:

"Dear Doctor:—I hope you will pardon me for being so careless in not letting you know in regards to my case. Well, Doctor, I must say I am feeling fine, and can work like a trooper. I feel like my old self again and I will certainly praise you. My medicine is almost gone, and I don't really think I need any more. Many thanks for your good results."

"Sincerely yours,
"MRS. F. J. WAGNER."

One of the most remarkable cures Dr. Raymond has effected is the case of Mrs. Ray Wallace who lived at 1413 Main street in Santa Ana but has removed to 1739 Front St., San Diego. She was so crippled with rheumatism she could hardly move, and suffered untold misery, as well as being crippled both in hands and limbs. She began a course of treatment with Dr. Raymond last February, while he was on his first visit to Santa Ana, and only this week she made a personal visit to his office in Los Angeles to tell him how well she was, and to say that she walked sixty blocks, to and from her work in San Diego, and came in to thank Dr. Raymond for what he had done, and to give him her name to publish to the world that others might be restored to health and happiness by his wonderful treatment, that cures to stay cured.

Hundreds of other testimonials could be given of grateful patients, but to those who read this one alone should cause those who suffer to consult Dr. Raymond, and take his Televida System of treatment for it is the most wonderful discovery of the age.

Dr. Edwin Raymond has a large institute at 550 South Olive St., Los Angeles, but in order to see many who wish to consult him, and cannot come to the city he is making regular monthly visits to the nearby towns, and will be at the ALLERTON HOTEL, Santa Ana, on Monday, AUG. 18th, where those who wish to consult him may do so free of charge. Office hours from 10 to 4 and as he has so many to see in the few hours allotted him, come prepared to wait your turn, and be serious, not curious, and he will be your friend and help you to regain your health. Don't put this off. Come Monday, the 18th, and see him at the Allerton Hotel.—(Advertisement.)

NYE'S CONDITION IS REPORTED FAVORABLE

State Controller Suffering from Third Paralytic Stroke in Few Months

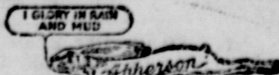

SACRAMENTO, Aug. 15.—State Controller A. B. Nye, who has been suffering from a serious paralytic stroke, passed a comfortable night. His condition is satisfactory today. His physicians have ordered a complete rest. His left side is paralyzed and he experiences difficulty in talking. This is the third paralytic stroke Nye has suffered in the last few months.

Nye suffered the latest stroke on August 4, resulting in practically paralyzing the left side of his body. He is able to speak, but not distinctly. On the occasion of his first stroke he was completely bereft of speech until he recovered. He was appointed state controller in 1906 by Gov. Pardee and has held the position ever since. In 1910 he was nominated for the office by both the Republican and Democratic parties and elected for the 1911-1915 term.

LOS ANGELES PRODUCE MARKET

Dried chili shows little if any indications of falling off from the present high prices. As long as difficulty is experienced in obtaining adequate supply from Mexico a substantial and permanent decline is not expected. Receipts have been insignificant for some time, and holdings are reported pretty well depleted in some instances. The local crop may produce a somewhat easier feeling later, however. Occasional offerings at 24 cents, steady, on the Produce Exchange are a rather good barometer to the present conditions. Green chile, on the other hand has been rather weak in its general tendency, as receipts from local sections are increasing in volume. Bell peppers also continue on a rather easy basis. Accumulation of local sweet potatoes, due to the fair receipts of the past few days, has resulted in lower prices. It is probable that when the local crop is in good supply the market will settle down to about the 2-cent a pound rate. Irish potatoes show little tendency toward anything except strength, when all the features governing prices are considered. Onions also promise to remain rather firm, with occasional advances. Peas and beans, with the exception of limas, are comparatively scarce, but the coming in of the new crops, the first fruits of which are beginning to appear, may tend to reduce rates and furnish higher-grade stock soon. Cauliflower and cabbage are only in fair supply, but the demand at this season verges toward the minimum.

Home Mutual Building & Loan Association of Santa Ana to S. R. Gutts—Release mortgage 80-182.

J. C. Hinkle to Hattie Chaffee—Release mortgage 168-342.

Charles H. Stanley to Alfred S. Wells—Release mortgage 130-309.

HIGH MEAT PRICES MAY PUT BUTCHERS OUT OF BUSINESS

BOSTON, Mass., Aug. 16.—The butchers of the country are ready to find new lines of business if the price of meat is raised much higher, because the average citizen will be forced to banish it from his table. This was the burden of several speeches at the master butchers' convention. They voted to meet in Chicago next year. President John T. Russell of Chicago, speaking of high prices, said:

"I do not think that people will be foolish enough to pay the exorbitant prices for meat that the wholesalers predict will prevail this winter. Thousands of people will stop using it with each one cent's raise."

SANTA ANA-BALBOA TIME CARD

The following revised schedule will take effect on the Santa Ana-Huntington Beach line Saturday, July 12, 1913:

S. A.	B. A.	S. A.	B. A.

WANTED—To trade a 110 vacuum cleaner for a house. Phone 960W.

DIGGS SMASHES PHOTOGRAPH VANDALS

Warrants Follow Exciting Mix-Up at Close of Session Yesterday

SAN FRANCISCO, Aug. 16.—Maury Diggs got into fresh trouble last night—and out of it. Leaving the federal building by a side entrance, to save his wife, his mother, his father and three aunts from public curiosity, he was ambushed by a squad of newspaper photographers. The women tried to run, but the photographers kept pace with them, snapping their cameras as they gave chase.

Somewhere snatched at a camera. Somebody punched a photographer in the face; bystanders joined in, and in an instant there was a free-for-all fight at the center of the swirling crowd.

Drew Caminetti was swept into the vortex and began to struggle with the rest. It got so complicated that the squad of officers who came running to the melee bundled the whole party of principals into a patrol wagon and took them to the nearest station.

There it developed, after much argument, that one photographer had been hammering on the head with something hard, what or by whom, he couldn't be sure. A reporter said that the photographer had been smashed in the face with his own camera. As the upshot of the whole affair, Diggs was released and a friend of his, a law clerk, was charged with battery.

So far as the opening statement of Attorney Devlin for the defense indicated, no attempt will be made to show that the two girls did not accompany the two young married men to Reno, that Diggs did not buy the tickets and Caminetti draw the money, or that their relations did not fall within the language of the statute.

"We shall show," said Devlin to the jury, "that the purpose of this trip was not as stated in the indictment, that it was the intention of the defendants only to leave Sacramento for a short time to avoid notoriety, that they had first intended to go to some place within the state, that it never was their intention to leave the state, but simply to get out of Sacramento, that they missed a train for Los Angeles and took the next one, which went to Reno."

"This crime—if it is a crime—is only such because the incidents are supposed to have happened between two states. If they had happened within the boundaries of California, these two young men would not have been charged with the violation of

this statute. Two weeks before, Diggs said he was going to Los Angeles. We will show that Miss Warrington said she was going too, and that he could not leave her in Sacramento."

Other testimony which the defense promised to introduce would go to show that the men had told what they believed to be the truth about the reasons for leaving Sacramento, that a scandal soon to explode would cover them all with shame and involve them all in prosecutions.

Attorneys for the defense were surprised at the sudden resting of the government's case and would not discuss their plans.

Counsel for the defense announced last night that Mrs. Diggs and Mrs. Caminetti, the two injured wives, will take the stand for their husbands, and that Diggs will testify in his own behalf. With these three witnesses the defense plans to close its case, not later than Wednesday.

Assault Warrant For Diggs

SAN FRANCISCO, Aug. 16.—Maury Diggs is charged with assault in a warrant issued today by Police Judge Sherrill, on complaint of Walter Matthies, a photographer, whom he is alleged to have beat over the head with his own camera. The incident occurred yesterday. Attorney James Ramsey, a friend of Diggs, is also charged with assault.

McMichael, former chief page of the house of representatives and frequently mentioned by Colonel Mulhall as his "principal news source" in legislative matters, gave the House lobby committee a new sensation last night. He testified that Representative James T. McDermott of Illinois, during the pendency of a loan shark bill affecting brokers and "ten percenters," had been the paid agent of the pawnbrokers.

McMichael told of a number of instances where he had obtained articles of his own and of McDermott's from the pawnbrokers of Washington. He named George B. Hornung, D. Heldenheimer and S. Hornung as parties who had been in collusion with McDermott to prevent the passage of the anti-loan shark bill in its original form. He told of a conference in the Hotel Navarre in New York, attended by Representative McDermott, himself, George B. Hornung and Tom D. McDermott, general agent of the United States Brewers' association. At this conference, according to McMichael's story, the agreement as to McDermott's activities against the bill was effected. McMichael also testified that Representative McDermott got part of the money that he, McMichael, collected from Colonel Mulhall.

It was the belief here that these disclosures will result in an effort to impeach McDermott and possibly an investigation by the grand jury.

McMichael told of several instances in which pawned goods were removed from the clutches of the pawnbrokers without the payment of interest, and of other instances where they were returned without the payment of even the principal.

In the course of his testimony, McMichael declared that Speaker Clark's colored messenger, and Harry Parker, the messenger to Chairman Underwood, had been to his knowledge in the pay of Colonel Mulhall.

AT THE COURTHOUSE

THE JUDGMENT IS SET ASIDE

Action of Schroeder Against Smith and Miner Opened Up by Judge Conrey

Yesterday afternoon Judge Conrey of Los Angeles set aside a judgment entered against the plaintiff in a suit brought by Ernest Schroeder against Smith & Miner, packers and shippers, of Santa Ana. Schroeder sued for money alleged to be due. Smith & Miner replied with an answer and cross-complaint, asking \$309.55 judgment against Schroeder, alleging that money was due the defendant rather than the plaintiff. The attorney for Schroeder received the cross-complaint but failed to notice what it was and failed to put in an answer. The time went by in which he could answer, and the county clerk entered up a default judgment against Schroeder. Schroeder's attorney then made a fight to set the case opened up, which he did by the order of Judge Conrey yesterday, who allowed Schroeder to put in an answer to the cross-complaint.

Fires Cross-Complaint

Today D. A. Davis and F. X. Thuet filed a cross-complaint to the suit brought against them by the Rooding & Wood Nursery Co. The plaintiff asserted that judgment should be given because the defendants had failed to deliver lemon nursery stock according to a contract. The cross-complaint alleges that \$295.71 is due the defendants because the plaintiff refused to accept trees offered its agent. C. R. Allen is attorney for the defendant.

Order Granted

The petition of the First Presbyterian church to borrow \$5000 was granted.

Divorce Decree

An interlocutory decree of divorce was granted to Ida Mae Gillespie against Eval L. Gillespie, and the plaintiff was allowed to resume her maiden name, Himmann.

Probation Granted

Earl Moore of Montevia, charged with theft at Huntington Beach, was granted probation, and was turned over to his mother. He is to report once a month to the city marshal of Montevia.

Names Appraisers

J. N. Anderson, George Ross and W. A. Ross were appointed appraisers of the estate of Gusale Jones.

Mothers! Have Your Children Worms?

Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetites? These are all signs of worms. Worms not only cause your child suffering, but stunt his mind and growth. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists, or by mail 25c.—Advertisement

Action of Schroeder Against Smith and Miner Opened Up by Judge Conrey

Yesterday afternoon Judge Conrey of Los Angeles set aside a judgment entered against the plaintiff in a suit brought by Ernest Schroeder against Smith & Miner, packers and shippers, of Santa Ana. Schroeder sued for money alleged to be due. Smith & Miner replied with an answer and cross-complaint, asking \$309.55 judgment against Schroeder, alleging that money was due the defendant rather than the plaintiff. The attorney for Schroeder received the cross-complaint but failed to notice what it was and failed to put in an answer. The time went by in which he could answer, and the county clerk entered up a default judgment against Schroeder. Schroeder's attorney then made a fight to set the case opened up, which he did by the order of Judge Conrey yesterday, who allowed Schroeder to put in an answer to the cross-complaint.

Fires Cross-Complaint

Today D. A. Davis and F. X. Thuet filed a cross-complaint to the suit brought against them by the Rooding & Wood Nursery Co. The plaintiff asserted that judgment should be given because the defendants had failed to deliver lemon nursery stock according to a contract. The cross-complaint alleges that \$295.71 is due the defendants because the plaintiff refused to accept trees offered its agent. C. R. Allen is attorney for the defendant.

Order Granted

The petition of the First Presbyterian church to borrow \$5000 was granted.

Divorce Decree

An interlocutory decree of divorce was granted to Ida Mae Gillespie against Eval L. Gillespie, and the plaintiff was allowed to resume her maiden name, Himmann.

Probation Granted

Earl Moore of Montevia, charged with theft at Huntington Beach, was granted probation, and was turned over to his mother. He is to report once a month to the city marshal of Montevia.

Names Appraisers

J. N. Anderson, George Ross and W. A. Ross were appointed appraisers of the estate of Gusale Jones.

Mothers! Have Your Children Worms?

Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetites? These are all signs of worms. Worms not only cause your child suffering, but stunt his mind and growth. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists, or by mail 25c.—Advertisement

EVANGELISTIC GATHERINGS

Series of Meetings Commence at Methodist Church Tomorrow Evening

(By Staff Correspondent.)

ORANGE, Aug. 16.—A series of union evangelistic meetings will open tomorrow evening in the First Methodist church. The services will be held regularly each evening for the next two weeks, with all the congregations of the city taking part.

Rev. Campbell left yesterday for Berkeley, where he will accept a position at the University of California.

H. G. Chapman and family will leave Monday for their home in New York. Mr. Chapman has purchased a ranch near here and is very much pleased with this part of the country. He is the son of one of the founders of Orange.

Miss Irene Davis and Winnie Smith of Newark are here for a visit with Miss May Mickert. They expect to remain a week.

Miss May Mickert, daughter of Mr. and Mrs. Fred Mickert, who has been visiting friends in Newark, has returned home.

Mr. and Mrs. H. H. Douglass of Bishop, Cal., are visiting the J. C. Wallace family on South Grand street. Mr. Douglass is the superintendent of the western division of the Marshalltown Buggy Co.

Mrs. F. L. Everett and sons, Harold and Percy, left this morning for two weeks' visit at Redondo.

Rev. B. C. Cory, Arthur Cory, A. R. Fernald and J. R. Schooley of Santa Ana, left Thursday for Yucap. Arthur Cory will remain there for a short time.

Miss Sylvia Spotts was taken to the Sisters Hospital in Los Angeles last evening for an operation for acute appendicitis. The operation was performed about 7:30 p.m. by Dr. Chapline of this city and Dr. J. E. Colman of Los Angeles. Her case is a very serious one, and she is reported to be in a critical condition, but may recover. She was ill only two days before the operation.

G. M. Bay of North Center street, is reported ill.

Mrs. M. L. Frazier, who has been visiting at Mrs. John Johnston's at El Modena, left yesterday for Whittier, where she will visit relatives for a few days before returning to her home in Pasadena.

A. Dittmer and son and Wm. Ratterman returned today from Mt. Wilson, where they have been spending several days.

Miss Helen Cory of South Orange street, left this morning for an over Sunday visit with friends.

Mrs. Mary A. Lemon of South Olive street, has gone to Whittier to spend a few days with her daughter, Mrs. Annie Nickle.

Mrs. B. R. Douglass and daughter, Mrs. Ray Howell, of Pomona, are visiting relatives in Long Beach and Pasadena.

Mr. and Mrs. Curtis E. Way of Long Beach are here for a visit with relatives.

The prayer meeting will be held in the Presbyterian church this evening at 7:30, with Lawrence Sheffer leader.

Mr. and Mrs. Stoner and family have returned from Idaho, where they have been spending several weeks.

Mrs. Wesley H. Stacy of North Olive street, has gone to Long Beach to visit the H. O. Williams family.

IN THE JUSTICE COURT

HE TURNED CORNER WRONG, PAID \$10

This morning S. Sanders pleaded guilty to turning a corner in an illegal manner, and he paid Justice Shirley \$10 as a fine. Frank H. Baker swore to a complaint against Sanders. Baker was riding a bicycle east on Third street when Sanders in an automobile swung off Sycamore street on to the left side of Third street, ran over Baker's bicycle and threw Baker.

DEFINES DIFFERENCE "JOB" AND "POSITION"

Attorney General Makes Delicate Decision in Matter of State Employees

SACRAMENTO, Aug. 16.—In response to a query made by State Controller Nye, it has been decided by Attorney-General Webb that a state official is a personage whose job and pay are specifically fixed by the legislature, and a state employee otherwise.

To Controller Nye is left the task of determining how many persons, under the application of the controller's rules and regulations can graduate from the ranks of "mere employees" and be eligible to have the state pay the premiums on their surety bonds.

Nye asked for the opinion in order that he might be able to determine what state legislators were entitled to have their bond premiums paid by the state. Approximately 50 per cent of the men and women in the state's service in various capacities are compelled to furnish bonds. The premiums on these bonds amount to several thousand dollars a year.

The controller also faces another confusing situation in the solution of the bond premium puzzle. Under the state law an employee is not entitled to draw a salary greater than that named in the statute which creates his position.

If warrants are drawn to pay bond premiums for an official in addition to the regular salary warrants, the controller is inclined to believe this law will be violated.

Standard Oil Accepts Common Carrier Law

SAN FRANCISCO, Aug. 16.—By filing with the State Railroad Commission yesterday its tentative rates for the transportation of oil from the field to the coast through its pipe lines the Standard Oil Company of California practically declared it will make no fight against the law passed by the Standard that the other pipe line common carriers. Such action by the largest oil corporation in the state makes possible, without delay, the operation of the new law and removes the probability of a test of the constitutionality of the measure. It was to the standard that the other pipe line companies looked to take the initiative in the opposition, and now that the Standard has decided to bow any contest over the legality of the act is very improbable. The news comes as a windfall to the small producers in the state.

The importance of the announcement of the Standard rates, lies not in their amount to be charged by the company for transportation of oil, nor in the various regulations promulgated, but in the fact that the company is willing to admit itself a common carrier. Such action is evidence of the changed attitude by the corporation toward the public. Opinions have been freely expressed that the Standard would fight such legislation. When the act was before the last legislature the principal opponents of the measure declared that they were fighting it because they feared that

the Standard would be able to evade its provisions. When the act was passed and signed, all the pipe line companies waited on the Standard. Owing to the successful fight made by the Prairie Oil & Gas Company, one of the former subsidiaries of the Standard Oil Company of New Jersey, against inter-state legislation of similar character, producers of this state who felt that some benefit would accrue from the law were fearful that such a successful war would be waged here.

When congress passed a law declaring inter-state pipe lines to be common carriers and placing them under the control of the Interstate Commerce Commission, the Prairie Oil & Gas Company, which owns an interstate pipe line from the Kansas fields, carried the law before the Commerce Court, which body declared it unconstitutional. The court held that pipe lines were private property, and in such case monopoly being a right of private property, they could not be forced to become common carriers.

FEARS HUSBAND HELD IN MEXICAN JAIL

PASADENA, Aug. 16.—Mrs. Joseph Larkin of 321 North Euclid avenue, today appealed to the police for assistance in locating her husband, who she fears has been killed or put in jail by Mexican revolutionists.

Announcement of the arrival of the 1914

Standard of the World

A new and decidedly progressive development in motor car construction is the

Two Speed Direct Drive Axle

Every ounce of power is used to the very best advantage under all conditions. Practically all vibration is eliminated. Maximum of power, speed and efficiency, with minimum of gasoline and oil.

Touch an electric switch and the gear ratio changes from 3.66 to 1 to 2.5 to 1.

This new axle is the most progressive step of the year in modern motor car development—giving two direct gears on each of the three forward speeds, without touching a lever.

The advantages of the high direct drive gear ratio lie primarily in the fact that with it, any given speed of the engine produces an increase of about 42 per cent in the speed of the car. For example: At an engine speed of 700 revolutions per minute, with the low direct gear engaged, the car will travel approximately 21 miles per hour; while on the high direct gear it will travel approximately 30 miles per hour with no increase in engine speed.

Under all conditions your car will always have at your control the ideal gear for securing the maximum of power and efficiency with the minimum of oil and gasoline consumption and wear and tear on the car.

THE TWENTIETH CENTURY CITY AND

"THE CITY OF GOD"

SERMON BY REV. FRED STAFF

IN THE CONGREGATIONAL CHURCH

SUNDAY MORNING, 11 O'CLOCK.

Left-hand drive? It's as old as the Ford—which was built to meet American, not European, conditions. And it is just one of the many devices by which Ford has led—while others followed. One model? Light weight? There, too, Ford leads.

Think what these prices mean—for the car that has stood the tests: Runabout \$525; Touring Car \$600; Town Car \$700—f.o.b. Detroit, with all equipment. Get catalog and all particulars from West End Garage, corner Sixth and Main Sts.
